Illinois State Horticultural Society.

The ILLINOIS FIRST GREAT APPLE SHOW and 63rd Annual Convention of the Illinois State Horticultural Society will be held at the Sherman Hotel in Chicago, Nov. '19, 20, 21, 22, 1918. For 63 years this Society, composed of volunteer members, has stood in the front rank of Horticultural organizations in the United States for the advancement in all Horticultural lines. Five conventions are held annually in the State, one by the Northern Illinois Horticultural Society in the Northern district, one by the Central Illinois Horticultural Society in the Central district, one by the Southern Illinois Horticultural Society in the Southern district, a summer meeting by the State Society and the Annual winter Convention.

The ILLINOIS FIRST GREAT APPLE SHOW is a departure toward educating the general public in the Apple industry of Illinois, together with the use of apples in the conservation program of the Government, and the necessity of apples as food in healthful living. Illinois is noted primarily as an agricultural state and the fact that this state grows on an average of millions of barrels annually of high quality apples, equal in flavor and quality to the best produced in the United States and of the highest type in appearance, is not so generally known. There is probably no section of the United States where orcharding is conducted with greater skill and with more remuneration than in Illinois. Southern and Southwestern Illinois comprise the great apple producing section and yet the very highest type of apples, in quality and appearance, can be produced in practically every county in the State.

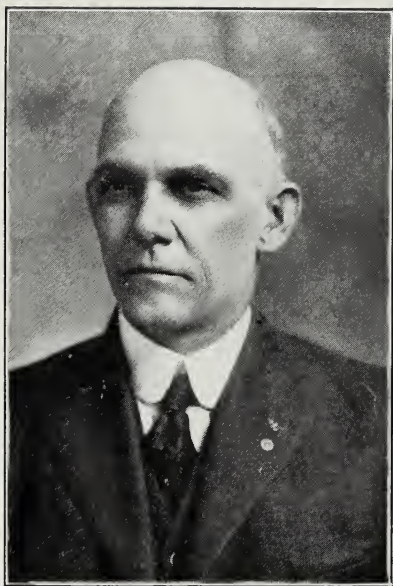

Membership in the Society.

The Illinois State Horticultural Society has about 500 members from every section of the State. The Society has received a small annual appropriation from the State Legislature to assist

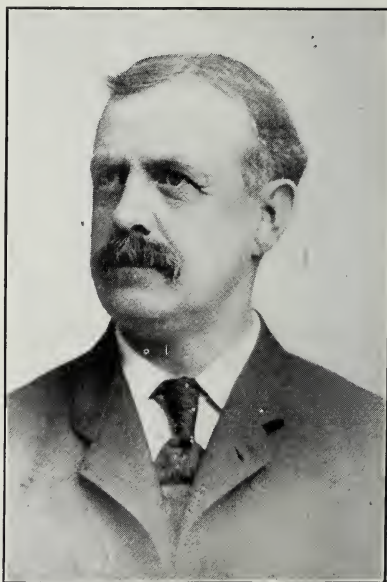

J. R. REASONER
Urbana

Vice-president Illinois State Horticultural Society

A. M. AUGUSTINE, Normal
Secretary Illinois State Horticultural
Society

J. W. STANTON, Richview
Treasurer Illinois State Horticultural
Society

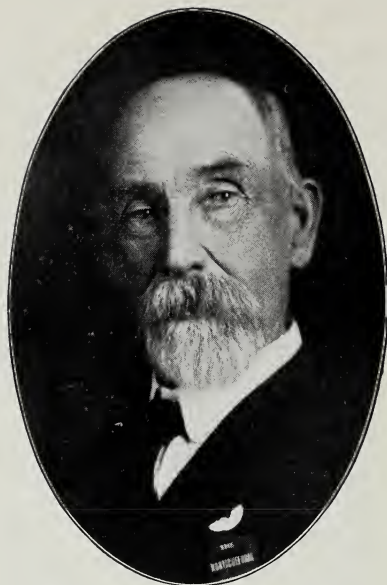

in carrying on its work. Each year the Report of the conventions is published in a substantial cloth bound Volume of about 500 pages, giving a complete account of the papers, addresses and discussions at the conventions. In connection with the ILLINOIS FIRST GREAT APPLE SHOW this will be the 52nd consecutive annual report published. These reports are a mine of information and experience freely given by the advanced Horticulturists in their various lines of work that educationally are invaluable to the horticultural interests of the State, both scientific and practical. Modern methods of orchard practice in Illinois has been developed and built up thru experience gained and recorded at the various conventions.

Cost of Membership.

Life membership in the State Horticultural Society costs \$5.00, which entitles the members to a copy of the reports and all advantages of the Society for his natural lifetime. Annual membership costs \$1.00. Payments can be made to either the secretary or the treasurer of the Society and a receipt and certificate of membership will be issued. Any one in Illinois interested in any branch of Horticulture cannot afford to be without a membership in the Illinois State Horticultural Society.

Orchard Machinery, Spraying and Accessories Exhibit.

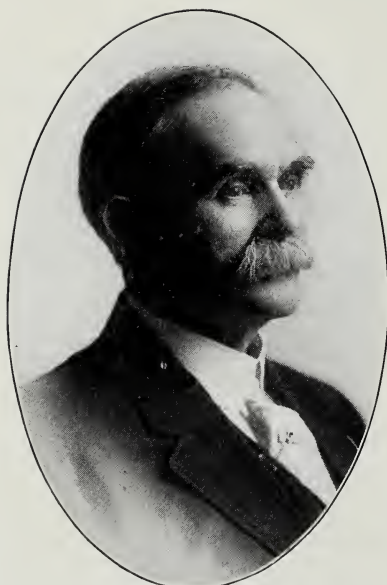

It is the purpose of the ILLINOIS FIRST GREAT APPLE SHOW to have an Exhibit of all kinds of orchard machinery, spraying machinery, spraying materials and orchard appliances co-jointly with the Apple Show. A reasonable charge will be made for space and allotments and arrangements for exhibit can be made by addressing the Executive Secretary, A. M. Augustine, Normal, Ill.

THE
DEPARTMENT OF HORTICULTURE
OF THE
UNIVERSITY OF ILLINOIS
URBANA, ILLINOIS

1. *Offers courses leading to degrees* in general horticulture, floriculture, and landscape gardening. The instruction includes practical as well as theoretical training in the planting and care of orchards and small fruit plantations; the growing of vegetables under glass and in the open field; the propagation of plants; the growing and handling of flowers for the wholesale and retail trade; the planning and planting of ornamental areas, including parks and private gardens. Send for catalogue and announcement of courses. Instruction begins September 18, 1918.

2. *Is offering this year special war courses* for two weeks each, dealing with the storage of vegetables and fruit; the war garden; small fruit culture, and spraying as a war measure. These special courses require a person's full time during the two weeks' period, and are designed to give the largest possible amount of practical information in the brief period. The first course begins October 21. Send for special announcement of war courses.

3. *Conducts research work* in spraying and other phases of orchard management; plant breeding; vegetable culture, and the fertilizing and growing of greenhouse crops. Bulletins and circulars reporting the results of investigations are distributed free upon request. Send for list of available publications.

4. *Carries on extension work* in the principal fruit districts of the state. Special attention is given to demonstrations in spraying and pruning of orchard trees. Any community desiring assistance in handling their horticultural problems should communicate with Professor J. C. Blair, Head of the Department of Horticulture, Urbana, Illinois.

Hotel Sherman.

City Hall Square, Chicago.
Corner Clark and Randolph Streets.

RATES.

To those in attendance at the Apple Show the following special rates have been given:—

Room without bath, one person.....	\$2.00 and up
Room with bath, one person.....	2.50 and up
Double room for two people, without bath.....	3.00 and up
Double room for two people, with bath.....	3.50 and up

The next best thing to a power sprayer. It's the Deming "SAMSON" Tank Spray Pump and will easily maintain a pressure of 100 pounds. Large Air Chamber permits the operator to pump and rest alternately.

Spray Time Is Brief - Speed Spells Profit

Don't wear your temper to a frazzle and waste time and money with some rattle-trap out-of-date spraying rig.

Deming

SPRAY PUMPS

With their large, free-working valves; sturdy construction; brass working parts; guaranteed hose; and nozzles that deliver a fine penetrating mist; will simplify your spraying—will give you the highest pressure and capacity with the least amount of effort.

A quarter of a century of intensive study and practical experiment is your guarantee of satisfaction.

40-Page Catalogue Free.

Write for 40-Page Spray Pump Catalogue containing many different types for all spraying conditions.

80-Page Practical Spraying Guide 10c

10c in stamps brings our 80-page practical guide book on spraying.

The Deming Company, Salem, Ohio

Hand and Power Pumps for All Uses.

General Western Agents, HENION & HUBBELL, Chicago

Hotel Sherman.

The Home of the ILLINOIS FIRST GREAT APPLE SHOW

The management of the Apple Show were very fortunate in securing the second floor of the Hotel Sherman, so splendidly equipped for holding the ILLINOIS FIRST GREAT APPLE SHOW.

Hotel Sherman is a notable example of progress.

Its name is interwoven with Chicago history. Yet it is one of the newest Chicago Hotels. The list of visitors who have made Hotel Sherman their Chicago home include the great names of America.

Hotel Sherman is the center of the city's life—the daily scene of representative, business and social gatherings.

The present Hotel Sherman is the fifth of the name to occupy the well-known site. It is new—a three million dollar master-piece of hotel construction, built on a scale of excellence absolutely abreast of the best that the world affords.

General Arrangements and service include details of comfort omitted from many hotels more expensive but less carefully managed.

Home of the Famous College Inn.

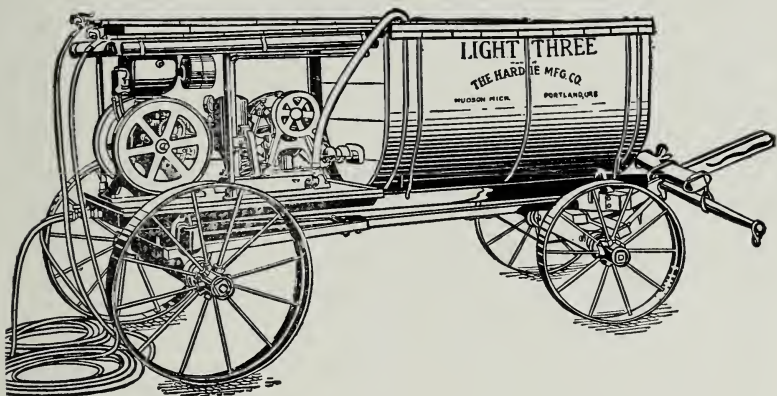

Hotel Sherman is the home of the famous College Inn, celebrated alike for good food and clever entertainment. Here originated the famous Ice Skating Exhibitions—enjoyed at luncheon, dinner or after-the-play.

To Out-of-Town Motorists.

Good concrete roads lead into Chicago from almost every direction. They invite a week-end trip with Hotel Sherman as headquarters. Garage nearby.

HARDIE SPRAYERS

Manufactured by Sprayer Specialists.
Kept up to the minute.

One of our several styles of power sprayers. Made in 5 sizes. The smallest size discharging 3 gal. per minute; the largest 12 gal. per minute. These Hardie sprayers are used by the most successful fruit growers in every State in the Union where fruit is grown.

Hardie Power Pumps

Are noted for their high pressure, large capacity, freedom from delicate or complicated parts. They stand the wear and tear of high pressure spraying as no other make of pump will—And in case of accident the parts are easily and cheaply replaced.

THE IDEAL ENGINE—used on all our large models is without question the best engine made in this country—Light—compact—strong and long on Horse Power, with no delicate or complicated parts. They are BUILT LIKE A WATCH and cost little more than inferior makes.

Our HILLSIDE SPECIAL POWER SPRAYERS make spraying easy on steep hillsides where you could not use a common machine.

The Hardie Orchard Gun

Cuts spraying cost in half. Don't take any chances. Buy a Hardie and you will know you have the best.

THE HARDIE MANFG. CO.
HUDSON, MICHIGAN

Secretary's Notice.

To the Members of the Illinois State Horticultural Society
and Fruit Growers of Illinois:—

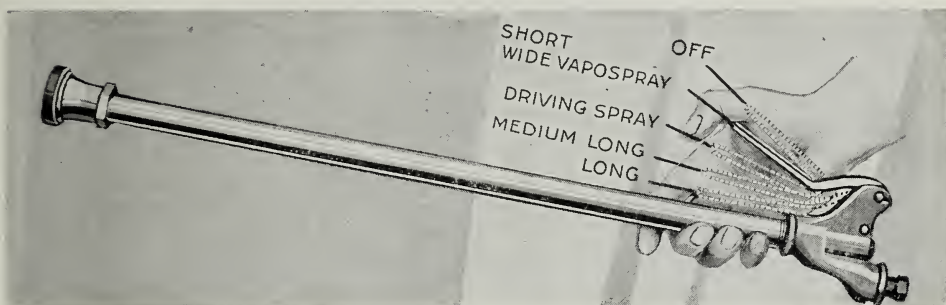

The Secretary wishes to call your special attention to the splendid line of advertising which this Premium List carries and remind you that the people who are advertising in this Premium List and the growers who have listed their names are the people who have made it possible to hold the ILLINOIS FIRST GREAT APPLE SHOW.

The funds available to the Horticultural Society were not sufficient to put on the ILLINOIS FIRST GREAT APPLE SHOW and it was necessary to secure advertising for the Premium List and Directory and sell space for special exhibits of machinery, orchard accessories, etc., at the Show, to raise sufficient funds to make the Apple Show a representative Show of the apple industry of Illinois. This has been accomplished and thru the loyal support of these advertisers.

These advertisers have contributed their part to the success of the Show and it is the duty of every Horticulturist in Illinois to show his appreciation by supporting them in every possible way and your Secretary hopes and believes that you will favor them in your business.

WHAT THE LARGEST APPLE GROWER IN ILLINOIS SAYS.

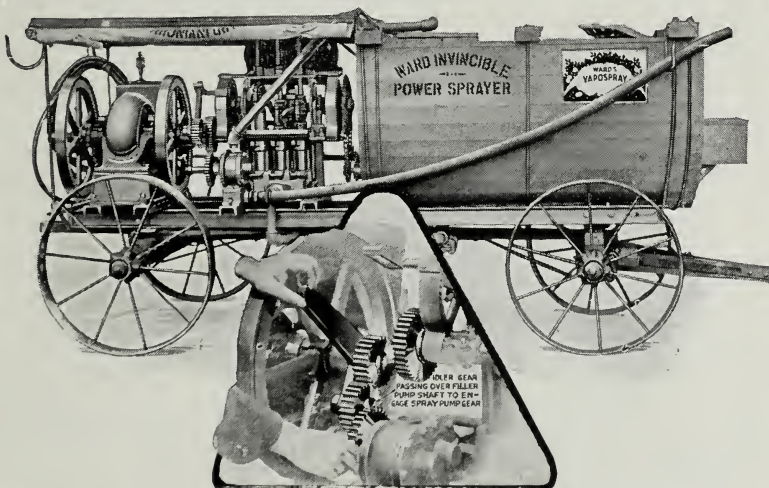

WARD PUMP CO., Rockford, Illinois.
Gentlemen:---

Savoy, Illinois, May 13, 1918.

We have been giving the spray guns a test, and we are greatly pleased with the results. I regret that we have not more of them. The device of opening the valve, I refer to the hand lever, is the best I have seen so far. The difficulty with a great many guns is not that they will not do the work but with the man behind the gun making a fire engine out of it instead of a spray machine. With your lever for adjusting the spray it is not easy for the operator to do the wrong thing. It is easier to do the right thing than the wrong. If he opens it up too much the regular pressure will tire him out. I congratulate you on what seems to me a very successful and easy to operate spray gun, one that is fool proof.

Yours very truly,

H. M. DUNLAP.

Rules for Exhibit.

All fruit exhibited must have been grown in Illinois.

Separate samples must be furnished for each entry.

All fruit exhibited must be entered in the name of the grower except Class 5, which must be Illinois grown fruit. Entries must be made on printed forms which may be obtained free by addressing the Executive Secretary of the ILLINOIS FIRST GREAT APPLE SHOW.

Exhibitors who are not members of the Illinois State Horticultural Society must accompany their entry with a \$1.00 fee to cover expense of entry and which entitles them to an annual membership in the State Horticultural Society.

Any exhibitor may show one or all varieties in any class. Exhibits incorrectly named or entered will be disqualified.

All protests will be referred to the Executive Board, whose decision will be final.

The Manager of the ILLINOIS FIRST GREAT APPLE SHOW will have power to exclude any exhibit that, for lack of quality or pack, is an undesirable exhibit. The Manager may order the same removed or replaced.

All protests against exhibits must be made in writing to the Manager before 12 o'clock, noon, on Tuesday, Nov. 19.

All exhibits must be consigned to the Illinois Horticultural Society, care of Wayne & Low, 159 W. So. Water St., Chicago, Ill., who will immediately place them in cold storage until the time of placing on exhibit.

All transportation charges must be prepaid, and the management will deliver all fruit in storage to the Show rooms, Friday, Nov. 15th.

All exhibits must be entered and placed by 9 A. M., Tuesday, Nov. 19th.

THE UNIVERSAL INSECTICIDE.

“CORONA DRY”

Arsenate of Lead

Patented June 30, 1913.

THE “STANDARD” FOR
CONVENIENCE, ECONOMY, EFFICIENCY

QUICKLY AND EASILY MIXED—No working up; no straining needed; no sediment; no lumps; no waste—*never clogs nozzles.*

No evaporation—no leaks—no loss of strength. But an *absolutely standard spray mixture*, the uniform strength of which you can depend upon—and know that you have *the highest per cent of killing power.*

“CORONA” is safe—it will not
burn foliage.

SOLD IN NET WEIGHT PACKAGES
200 lbs., 100 lbs., 50 lbs., 25 lbs., 5 lbs., 1 lb.

“CORONA DRY” means—No guess work, but a Standardized Spray in which the Mixture is Always the Same Strength and Efficiency.

“CORONA DRY” is used by the big apple growers of the UNITED STATES—by thousands of the largest and most successful commercial growers and planters of the nation and they have rendered the verdict of distinctive superiority over all brands.

Plates and Packages.

Plate exhibits shall consist of four plates of a variety, with nine specimens to the plate.

The box used in this Show will be the standard apple box, $10\frac{1}{2}$ x $11\frac{1}{2}$ x 18 inches, inside measure, containing 2173.5 cu. in. The trays used will be the same surface measure of the box, but will be only 2 in. deep. The barrels used in this Show will be the U. S. Standard apple barrel. The dimensions are, Stave length $28\frac{1}{2}$ in., Diameter of head $17\frac{1}{8}$ in., distance between heads 26 in., circumference of bulge, outside measure, 64 in.; containing approximately 7056 cubic inches.

The basket exhibit will use standard bushel basket.

In the box and basket classes each apple except the top layer may be wrapped in fruit wrapping paper, but wrapping or lack of wrapping in these classes will not be considered in judging. Lining paper should be used in all box and tray exhibits. Apples in barrel classes are not to be wrapped.

All packages excepting barrels can be obtained from the Manager at the time of the Show. Boxes will be sold at cost; trays and plates will be furnished free, and lining and wrapping paper will be furnished free.

Expert packers will be employed by the management to assist exhibitors where necessary to repack exhibits, and may be secured if applied for when entry is made. A charge will be made for such packing to cover expense of same.

All signs, banners and placards must be of size and style approved by the Manager. Exhibitors must confine signs, etc., to space allotted in exhibit. No signs or information permitting identification will be allowed until after awards have been made.

Entry should be made as early as possible, as special staging will have to be provided.

Exhibits will be allotted space in order of entry.

Entries unavoidably delayed beyond the date and hour of entry shall be subject to space available and the approval of the superintendent.

NOTICE---Shipping Exhibition Apples.

It is recommended by the committee that all fruits shipped to Cold Storage or direct to the Apple Show be sent by express, even tho the consignment may be large, and barrel stock should be ventilated by boring one-half to three-quarter inch holes in the side of barrel to fascilitate rapid cooling of the fruit when placed in the cold storage.

Mark plainly to whom shipped and from whom. Tags will be supplied to all who desire, with full printed address attached.

The following form or similar ones should be used in shipping:—

From

.....
.....
.....

To ILLINOIS HORTICULTURAL SOCIETY,

c/o Wayne & Low,
159 W. So. Water St.,
Chicago, Ill.

REVISED

ECONOMY CODE

FROM observation of orchards set out by the earliest inhabitants in this state, we are convinced that with proper cultivation and spraying, apples unsurpassed in quantity and unexcelled in quality can be produced on thousands of acres of Illinois soil that now are comparatively unproductive.

Yours for better apples, Illinois,
Apples with a flavor, Illinois,
Apples red and yellow,
Apples ripe and mellow,
Apples that are luscious, Illinois.

Apples that will please, Illinois,
Apples we may ship across the seas, Illinois,
Apples that will bring us treasure,
In the very fullest measure,
Apples for our health, Illinois.

We believe that the grower of tempting, luscious apples is as necessary to the health of the people of this country as the physician.

GRIDLEY, MAXON & CO.,

Per E. P. Gridley.

OUR STEADY GROWTH

Apples One of Our Specialties

You judge your bank by its annual statement. We submit our figures for your careful consideration. These figures show the steady growth and successful increase of our business. There can be only one reason—satisfactory and prompt service for our shippers at all times. Make us your Chicago connection.

Apple selling service—

We have had over fifty-four years' experience in the handling of apples on this market.

ARE NOT BUYERS; handle on commission basis only. Have none of our own to sell in competition with consignments.

Our salesmen are highly efficient and our store the largest on the Street.

If you consign to the Chicago market communicate with us relative to handling your account.

When in Chicago attending the "Illinois First Great Apple Show" we should be pleased to have you call on us.

CHICAGO, - - - - - ILLINOIS
